# So. Much. Fun!

**Bartosz Liebek**  2022-11-10

Testing this again will make QAs cry 🙂 and it will cause tons of merge conflicts 🙂

To quote the ticket:

> This only switches some underlying basic router setup from relying on JSX magic to calling an actual function. Tests and interface rendering are not affected by this.

In theory, yes 🙂 but I think full regression needs to be run. And if QA hear "another router update" they'll get a whole bunch of grey hair 😄

+1 from a grey one. 😄

It will all work out.
